Summary

Ph.D. candidate in Computer Science at the High Performance Visual Computing Lab (HVCL), Korea University. My research focuses on computer vision and medical image analysis, with experience developing deep learning algorithms for image generation, segmentation, classification, and visual foundation models. I have worked on projects involving diffusion model-based data augmentation, image translation, and super-resolution, as well as foundation models (e.g., SAM) and weakly supervised learning. Recently, I have been particularly interested in leveraging diffusion model priors for advanced image processing.

Research Experience

Visual Computing Group

Harvard Univ., Massachusetts, USA

VISITING SCHOLAR

Mar. 2024 - Mar. 2025

- Project: Image Translation for high-plex immunofluorescence image generation using diffusion models

High Performance Visual Computing Lab

Korea Univ., Seoul, S.Korea

PH.D. COURSE

Aug. 2020 -

- Research focus on segmentation, generative models and foundation models for medical image processing
- Project: histopathology image analysis, food image classification
- TA: Data structure (Spring 2021, Fall 2021, Spring 2022), Digital Image Processing (Fall 2022)
- Server Manager / Lab Leader

Medical Information Processing Laboratory (MIPL)

Korea Univ., Seoul, S.Korea

UNDERGRADUATE RESEARCHER

Mar. 2019 - Jun. 2019

- Project: Image Reconstruction Demo Program Development - Virtual simulation tool which can control various variables (The number of photons, noise, and reconstruction methods, etc.)
- TA: Biomedical Signal Processing (Spring 2019)

Program Committees

2023 **Student Contributor**, (AI Challenge) PAIP 2023: TC prediction in pancreatic and colon cancer

IEEE ISBI 2023

Education

Korea University

Seoul, S.Korea

PH.D. CANDIDATE IN COMPUTER SCIENCE

Mar. 2021 - Aug. 2026

- GPA (4.31/4.5)
- High Performance Visual Computing (HVCL) Lab - Computer Vision / Medical Vision
- Student Life Advisor by KU Global Service Center (Fall 2023)
- Language Exchange Programs by KU Global Service Center (Spring 2023 - Fall 2023)
- Student Mentor for foreign students by KU Global Service Center (Spring 2023)

Korea University

Seoul, S.Korea

B.S. IN BIOMEDICAL ENGINEERING

Mar. 2014 - Feb. 2021

- GPA (4.03/4.5)
- Student Council in Department of Biomedical Engineering (2014 - 2015)
- Biomedical Engineering Academic Team of Korea University (Fall 2018, Spring 2019)
- Volunteer programs for foreign students by KU Global Service Center / KUISC (Summer 2018), KUISA (Fall 2018), KUBA (Fall 2019)
- KU Peer Tutoring Program - Biomedical Signals and Systems (Spring 2019)

Chapman University

Orange, California, USA

EXCHANGE STUDENT

Spring 2020

- Computer Science courses and mathematics course (biostatistics)
- Club activity: Korean-American Student Association (KASA)

East China Normal University

Shanghai, China

KU-CHINA GLOBAL LEADERSHIP PROGRAM

Summer 2016

- Intensive Chinese courses
- HSK level 4 (264/300) in Dec. 2021
